SECTI 25X1 Copy of 7 25 January 1956 MANY MEAN MORE After of Security 25X1 ATT TIOS 25X1 Chief, : Clearance Request -TIBITATI Pinanes Division 1. In confirmation of my informal request, it will be appreciated if you will take stops to authorise discussing financial activities comcerning Project Agestone with the Chief, Finance Division. This request is necessitated because the major portion of finance operations abroad are processed through the Finance Division, and we surrently need a disconstinum with respect to the headling of pay for agent type personnel. 2. It is unlikely that it will be mecessary to discuss the overall operations of Aquetone with subject official; however, it is expected that a number of financial matters, including systems, policies and practices, will be coming up in the near feture which will require coordination to insure appropriate correlation between the Project system and the overall Agency systems. 25X1 Project Comptroller Distributions Al - Addressee 3 - Project Director L - Deleg. of Auth. file (Pin) The law of the law year 5 - Chief, Pinesee Division destrey of 6 - Clearances (at Proj.Fin.Request) (Fin) 7 - (2000)
